**Sub: ERECON IPAS Module – Mapping of User Ids to Sections and Roles**  
**Ref: Railway Board's letter No. 2008/ACI/6/2/Meeting dated 13/03/2019**

Migration of ERECON system to IPAS system is in progress and testing activities for this module is also being carried out by various units. It should also be noted that ERECON reconciliation activity from April 2019 onwards will be carried out in IPAS system only.

As is known by the users of ERECON System that the flow/routing of TC/JV is based on sections and roles assigned to the users hence it becomes imperative for a similar one time activity to be performed for the existing users of IPAS system also.

In this regard it is stated that each Unit of Indian Railways have to perform the one time mapping activity at individual unit level at the earliest and before ERECON module in IPAS is made Live. This mapping activity can be completed in the following manner.

- 1) Submission of existing User Id (IPAS system) list section wise, clearly mentioning the ERECON roles (i.e. CLERK, SUPERVISOR, JRA, SRS, JAG, Intra Referee and Inter Referee) against each User Id by the Accounts Department to the IPAS team.
- 2) Mapping activity to be done by local IPAS team who are maintaining the User Ids in consultation with the CRIS representatives stationed at Zonal Headquarters.
- 3) Intimation of completion of the mapping activity to Western Railway (list regarding the mapping activity should not be sent).

End Users may also be instructed to perform test runs in ERECON-IPAS module in consultation with local IPAS team and CRIS representatives. Cash Data for the month of March 2018 is available in the ERECON module of IPAS system. Manual Voucher Entry and other steps may be performed similar to as in ERECON system. Any short comings or improvements may also be informed to the CRIS representatives.

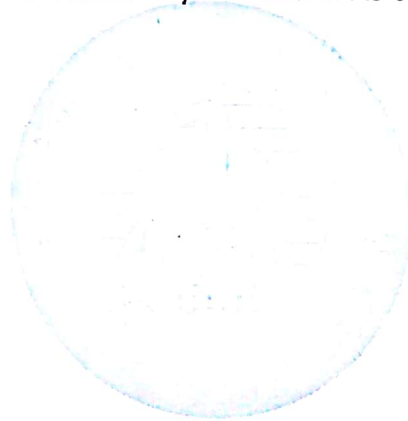

From the month of April 2019 Erecon module will be available in IPAS as such it is requested to nominate the users and assign the IPAS user IDs with the Roles (CLK, CLK1, SUP, JRA, SRS and JAG) in the following format. Existing Erecon system will be closed and users will have to generate the TCs and JVs in the new Erecon module in IPAS from April-2019.

Section Name:		Section Code:
IPAS ROLE	IPAS USERID	Role Description
CLK		For generation of TCs & JVs
CLK1		For generation of TCs & JVs
SUP		For Approving of TCs & JVs
JRA		For JV approval
SRS		For JV approval
JAG		For JV approval

The following two users are to be nominated by Books Section of HQ only for performing referee related work.

Intra Level Referee  
Inter Level Referee

Once the ERECON Module in IPAS becomes operational and live, all future issues if any arising in the module should be handled by the local IPAS team in consultation with CRIS representatives.
